

## U. S. Raps Soviet for 2 Attacks on Planes; Coal Strike Notice Is Filed by John L. Lewis

### Wants Wage Talks With Operators

Miners Will Continue  
to Work on Their Jobs  
for 30 Days Before a  
Halt Is Called

### Issues in Dispute Question of Supervisors in U. M. W. Hours, Pay To Be Taken Up

Washington, March 2 (AP)—U. M. W. Chief John L. Lewis today filed on behalf of some 400,000 miners a 30-day strike notice. Simultaneously, Lewis notified bituminous coal operators that he wished to reopen wage talks with them on March 12 in Washington. The United Mine Workers' strike notice was filed with the National Labor Relations Board, Secretary of Labor Schwelb, and the Wage Stabilization Board. Lewis said the miners "will continue to work for the ensuing 30 days."

### Writes to Agencies His letter to the three govern- ment agencies declared that the issues in dispute between the U. M. W. and the coal operators covered wages, the question of whether supervisory employees could belong to the U. M. W., work- ing hours and other matters.

Lewis said further that the ad-  
ministration's new wage-price  
policy had resulted in a "signifi-  
cant change" in government wage  
policy and that under the U. M. W.  
contract, the wage issue could be  
reopened.

This letter is now directed to  
you as formal notice that a labor  
dispute exists \* \* \* between the  
United Mine Workers of America  
and the bituminous coal operators  
of this country," Lewis wrote.

"To the end and for the purpose  
of adjusting and settling the pres-  
ent issues now in dispute and for  
the purpose of procuring a new  
basic wage agreement for the in-  
dustry, we will continue to work  
for the ensuing 30 days."

### Notification to Operators The notification to the operators concerning wage talks was sent to Ezra Van Horn, chairman of the operators' Negotiating Commit- tee of the National Bituminous Coal Wage Conference in Cleve- land.

This said in part:  
"You are hereby officially not-  
ified that the United Mine Work-  
ers of America requests a national  
joint conference of the accredited  
representatives of the joint con-  
tracting parties, for the purpose of  
negotiating new agreements, prac-  
ticing wages, hours, rules, prac-  
tices, differentials, inequalities,  
and all other pertinent matters  
affecting or pertaining to the  
national bituminous coal industry.  
It is suggested that a convening  
of the conference at 11 a. m.  
(E. S. T.) Tuesday, March 12, 1946,  
in Washington, D. C., would be ap-  
propriate."

Lewis added that he would "be  
gratified to receive prompt ac-  
quiescence" with the request for  
the conference.

### Questions 30-Day Delay

In filing his strike notice, Lewis  
questioned whether or not such a  
30-day delay now was necessary  
under the War Labor Disputes  
Act. However, he said, "since the  
act (War Labor Disputes Act) still  
lies heavily upon the statute books,  
the United Mine Workers of  
America are desirous of meeting  
all of its requirements."

Lewis asserted the present coal  
wage contract could be termi-  
nated as of midnight, March 31.

The contract provides that, at  
any time after March 1, 1946,  
either contracting party may give  
10 days notice of a desire to re-  
open contract negotiations. The  
other party to the contract agrees  
to attend such a conference.

The negotiations would continue  
for 15 days and, if agreed upon,  
could continue longer. However, if,  
at the end of the 15 days no agree-  
ment appeared in prospect, either  
party could serve notice that the  
contract would be terminated five  
days from the receipt of such  
notice.

Reopening of the wage question  
in the coal industry had been fore-  
cast since Lewis several days ago  
called a meeting in Washington  
March 11, for his 200-member  
wage policy committee.

### Major Crime Orgy During 1945 Was Worst in 15 Years

### F. B. I. Survey Shows Jump Over Previous Year of 12.3 Per Cent. It Is Revealed

Washington, March 2 (AP)—At-  
torney General Tom Clark reported  
today that the largest annual  
increase in serious crimes in 15  
years took place during 1945.

Clark said an F. B. I. crime sur-  
vey showed serious crimes jumped  
12.3 per cent over 1944. The of-  
fenses considered in the survey in-  
cluded murder, rape, robbery, ag-  
gravated assault, burglary, larceny  
and auto theft.

These crimes totaled about 1-  
565,541 during 1945 compared with  
1,398,653 in 1944, Clark said, add-  
ing that this represents a total of  
4,289 serious crimes committed  
daily. In a statement Clark added:  
"This orgy of crime must and  
will be wiped out. Our efforts  
must be doubled to check this  
dangerous situation. Respect for  
law must be restored. We are di-

### 3-Point Military Policy Surest Way To Keep Out of War

New York, March 2 (AP)—Secre-  
tary of War Patterson has offered  
the nation a three-point military  
policy which he said was the  
surest way for America to keep  
out of war. The program included:

1. A single department of the  
armed forces, with a strong re-  
serve of trained manpower.

2. A well-trained National  
Guard.

3. "A vigorous program of sci-  
entific research and development,  
to make sure that the most effective  
weapons are available if needed."

"There is no menace in this, no  
threat to anyone's peace," he told  
the overseas press club, "this na-  
tion will never go on the warpath."  
"Weakness will be no solution.  
It will generate nothing but con-  
tempt. We have followed that  
practice in the past, with the re-  
sult that we have been forced into  
war after war. I know of no prob-  
lem as important to the nation as  
that of its defense in the times  
ahead. For the sake of everything  
we hold dear, let us not be the  
only one to disarm."

Philadelphia, March 2 (AP)—John  
Foster Dulles, alternate United  
States delegate to the United Na-  
tions Organization, last night pre-  
sented a U. N. O. "balance sheet"  
in which he listed some of the  
"assets" and "liabilities" of the  
recent U. N. O. meetings.

On the credit side, Dulles pointed  
to the progress made toward a  
colonial trusteeship system and the  
"seriousness" with which the  
Assembly took relief problems. A  
"divisive and discouraging" de-  
velopment, he said, was the pres-  
ent "trend toward disharmony."

Dulles said it "was particularly  
hard to find ways of working to-  
gether with the Soviet Union \* \* \*  
the Soviet leaders \* \* \* keep up  
barriers of a kind which normally,  
are used only against an unfriend-  
ly and dangerous outer world."

"The Soviet leaders have strong  
convictions of their own and those  
include a strong conviction against  
compromise," Dulles said in an ad-  
dress at a dinner of the Foreign  
Policy Association.

The Soviet Union has for the  
most part declined to join the  
economic, financial and cultural  
undertakings which have been  
launched since the war and which  
are designed to be related to  
United Nations as specialized  
agencies," he said.

the United Nations should work

### Will Observe the Effect of A-Bomb Against Seapower When Bikini Is Hit

By ELTON C. FAY

Washington, March 2 (AP)—The  
biggest brass plan to witness the  
forthcoming test of the atom bomb  
against seapower in the Pacific.

It was learned today that three  
of the four members of the joint  
chiefs of staff will attend the ex-  
periments at Bikini Atoll, with the  
idea of making a first-hand esti-  
mate of the A-Bomb's effect on  
existing armaments and strategy.

General Dwight Eisenhower,  
Army chief of staff, has announced  
he would observe the tests. Aides  
of Admiral Chester Nimitz, chief  
of naval operations, said he was  
planning to attend and the same  
report came from General Carl  
Spaatz, commander of Army air  
forces.

However, at the White House  
it was said that Admiral William  
D. Leahy, presidential military-  
naval adviser and fourth member  
of the joint chiefs of staff, prob-  
ably would not go to Bikini. Offi-  
cials said they knew of no plans

### City Contingent To Leave Monday For Induction

Kingston's draft board will send  
another peacetime contingent to  
an army induction center in Al-  
bany Monday morning, for im-  
mediate induction into the armed  
forces. At the same time another  
contingent will leave for Albany  
for pre-induction physical examina-  
tions.

Members of both contingents  
will be men in the 18 year old  
group.

The contingent for immediate  
induction will number ten men,  
while the pre-induction group will  
number 14.

The two groups will leave the  
office of the draft board at 10  
o'clock that morning, making the  
trip to Albany by bus.

### Seeking Agreement On Proviso Aimed At Franco's Doom

### U. S., Great Britain, France Reported Split on Issue of What Spaniards Are Approached

Washington, March 2 (AP)—Brit-  
ain, France and the United States  
pressed today for final agreement  
on a joint declaration encouraging  
Spaniards to overthrow General-  
issimo Franco. But the question  
was: Which Spaniards?

Diplomatic representatives of  
the three powers were intent on  
getting the proposed pronounce-  
ment ready for public release this  
week-end, but France and the  
United States were reported split  
on the issues of what elements  
to address in the manifesto.

French Embassy Counselor,  
Armand Berard, conferred for 80  
minutes late yesterday afternoon  
with Paul Culbertson, State De-  
partment chief of western Euro-  
pean affairs, but no final agree-  
ment was reached.

Earlier, the state department  
confirmed that British and French  
had "approved in principle" the  
U. S. proposed declaration reliably  
reported as spurring Spaniards to  
set up a broadly representative in-  
terior government in Madrid  
pledged to:

1. Calling national elections.
2. Declaring political amnesty.
3. Providing freedom of reli-  
gion, assembly and press.

### Full Recognition Promised

In return, the new government  
would receive full economic and  
diplomatic recognition by the  
three powers. The proposal was  
understood to leave the tasks of  
changing the present Spanish gov-  
ernment to the Spanish people  
themselves. It was indicated there  
would be no immediate break with  
Franco until the tri-power appeal  
for a change was answered.

Differences between the French  
and U. S. viewpoints were reported  
hinging on a description of the  
Spaniards to whom the declara-  
tion would be aimed. At present,  
it was learned, the American pro-  
posal is addressed to the Spanish  
people "inside or outside the  
(Spanish) government."

If that applies only to Spaniards  
within Spain, thus excluding the  
Spanish Republican government-in-  
exile, then France, it was learned,  
wants the phraseology changed  
to read "inside and outside  
Spain."

France now harbors a reported  
250,000 Spanish Republicans under  
an elected premier, Dr. Jose Giral.  
The British government, through  
its embassy here, is understood to  
be keeping informed of the negotia-  
tions. It is believed Britain will  
probably side with the American  
viewpoint on the matter.

### Jimmy Fidler Sued For Alleged Libel

Los Angeles, March 2 (AP)—Radio  
Commentator Jimmy Fidler has  
been sued for \$1,000,000 by Diana  
Productions, Inc., and its executive  
vice president, Walter Wanger,  
who alleges Fidler broadcast libel-  
ous remarks about the film "Scar-  
let Street."

Also named in the suit were  
the American Broadcasting Com-  
pany, and Fidler's sponsor and  
agent.

### Six City Employees Bring Action to Have Their Wage Increments Restored

Papers were served on Mayor  
W. F. Edelmuth and other city  
officials today in an action brought  
by six members of the City Em-  
ployees' Union, Local 316, to have  
restored regular salary incre-  
ments which they claim have been  
withheld since the first of the  
year.

The six employees bringing the  
suit are C. LeRoy Brower, George  
Zelmer, John Scharp, Richard  
Williams, Patrick Walsh and Mrs.  
Leonora Feistel.

The employees are represented  
by District Attorney N. LeVan  
Haver.

### Is Second Action

This is the second action to be  
brought against the city by em-  
ployees. The first, which was ar-  
gued recently before Supreme  
Court Justice Harry E. Schirick,  
was brought by the police and fire-  
men to have the pay increases  
which had been receiving and  
which had been withheld since the  
first of the year restored.

The police and firemen are re-  
presented by Attorney Francis  
Martucci, while Corporation Coun-  
sel Arthur B. Ewig appeared on  
behalf of the city.

### Decision Forthcoming

Judge Schirick is expected to  
shortly hand down a decision in  
the police-firemen action.

At the hearing before Justice  
Schirick in Albany several days  
ago it was brought out that the  
pay increases had been included  
in the city tax budget for this  
year, but when a taxpayers' ac-  
tion was brought, the budget was  
declared unconstitutional as it  
exceeded the two per cent tax  
limitation law.

As a result of the court's de-  
cision in the taxpayers' suit, a  
new budget was drafted by Mayor  
Edelmuth, which was adopted by  
the Common Council.

When the budget was stream-  
lined to come within the two  
per cent limitation, all salary in-  
creases granted last year were  
dropped from the budget. It is also  
alleged that regular salary in-  
crements were also cut out of the  
budget.

At the time the new budget  
was adopted the city authorities  
were warned by George E. Yerry,  
representing city employees that if  
salary increases and increments  
were omitted from the budget  
that it would result in action  
being brought against the city.

### Pauley Spurns All Bids He Withdraw

### California Waging Bitter Battle Despite Pessimism in Democratic Camp

Washington, March 2 (AP)—Ed-  
win W. Pauley flatly refused again  
today to quit his fight for con-  
firmation as Undersecretary of the  
Navy, although Democratic lead-  
ers said they expected his name to  
be withdrawn.

Pauley was reported unyielding  
under pleas by administration  
lieutenants that he pull out of the  
fight, and he gave no encourage-  
ment to proposals that he arrange  
a recall of his nomination before  
hearings on his qualifications re-  
sume next Wednesday.

The "out" proposition presented  
to Pauley was described in this  
way by one Democratic senator  
who withheld his name:

Pauley would submit to the  
Senate Naval Committee, which is  
investigating his qualifications, a  
formal statement that unfounded  
charges were made against him  
by a series of witnesses who testi-  
fied before the committee.

Pauley then would announce  
that while the charges had not  
been proved he felt that the con-  
troversy raised over his appoint-  
ment would impair his usefulness  
as Undersecretary and therefore  
he was asking President Truman  
to withdraw his name.

### Pose Graceful "Out"

this appeared to them the most  
graceful way out of the difficult

### Strikes at a Glance

(By The Associated Press)

Nation's labor disputes keep idle approximately 810,000.  
Major developments:

Automotive—General Motors strike, 102 days old, to continue  
"until G. M. meets its public responsibility" says C. I. O. United Auto  
Workers leaders after C. I. O. U. A. W. G. M. Council rejects man-  
agement's "maximum proposal" for settling walkout; negotiations  
continue today, with union to report to council.

Utility—Threatened power strike in Pittsburgh, set for Tuesday,  
averted as independent union votes to arbitrate wage dispute.

Milk—10-day strike of dairy workers in Detroit appears near  
end as C. I. O. union and creamery negotiations agree on wage in-  
creases of 18 cents an hour; strikers meet on ratification of pay  
boosts and other proposals.

Railroad—Strike of Southern Pacific's 3,500 engineers and train-  
men in Texas and Louisiana, set for this morning, called off as com-  
pany and brotherhood officials reach an "amicable settlement" in  
issues, involving awards; President Truman names emergency board  
to investigate some 400 cases still in dispute.

Electrical Equipment—Hopes for peace in C. I. O. Electric Work-  
ers strike in Philadelphia as strikers discontinue mass picketing in  
front of strikebound General Electric plant.

### Challenges Removal of Equipment

Russia Told Off After  
Byrnes Speech About  
Tougher Attitude in  
Future Dealings

### 'Hostile Act'

Navy Uses Caustic Tone  
Calling Act of Reds  
'Unjustifiable'

Washington, March 2 (AP)—The  
United States told Russia off to-  
day for two Soviet attacks on  
Navy planes off the Manchurian  
coast and for the Red Army's re-  
moval of Manchuria's industrial  
equipment.

The protests provided an unex-  
pected follow-up to the speech of  
Secretary of State Byrnes Thurs-  
day foreshadowing a much tougher  
approach in future dealings with  
Moscow.

In protesting the attacks on  
American planes, the Navy used  
very strong language. It termed  
one incident a "hostile act" and  
called the other "unjustifiable."

The Navy's protest coincided  
with a State Department declara-  
tion that Russia had no right un-  
der any Allied agreement to strip  
industrial equipment from the for-  
mer Japanese puppet state of  
Manchuria.

The attacks of American planes  
both were reported to have taken  
place in the Port Arthur-Dairen  
area, and the Navy pointed out  
that under the Russo-Chinese  
treaty of last August, Dairen is  
supposed to be a free port, open to  
all nations, but administered by  
China.

According to the Navy, the first  
Soviet attack on a U. S. plane in  
this area took place last October,  
and the second last month.

When the first incident was pro-  
tested, the Navy said, Russian au-  
thorities replied the Soviets were  
responsible for defense of the Port  
Arthur area under the treaty with  
China and that American planes  
must not approach within 12 miles  
of the coast without previous per-  
mission.

### Navy Rejects Reply

The Navy rejected this reply,  
pointing out that the American  
plane was 25 miles at sea when  
fired on by Soviet aircraft, and  
that Russia had never notified  
the United States it intended to  
apply a 12-mile limit in Soviet-

## U. S. Raps Soviet for 2 Attacks on Planes; Coal Strike Notice Is Filed by John L. Lewis

### Wants Wage Talks With Operators

Miners Will Continue to Work on Their Jobs for 30 Days Before a Halt Is Called

Issues in Dispute  
Question of Supervisors in U.M.W. Hours, Pay To Be Taken Up

Washington, March 2 (AP)—U.M.W. Chief John L. Lewis today filed on behalf of some 400,000 miners a 30-day strike notice. Simultaneously, Lewis notified numerous coal operators that he wished to reopen wage talks with them on March 12 in Washington. The United Mine Workers' strike notice was filed with the National Labor Relations Board, Secretary of Labor Schwelb and the Wage Stabilization Board. Lewis said the miners "will continue to work for the ensuing 30 days."

Writes to Agencies  
His letter to the three government agencies declared that the issues in dispute between the U.M.W. and the coal operators covered wages, the question of whether supervisors' employees could belong to the U.M.W., working hours and other matters. Lewis said further that the administration's new wage-price policy had resulted in a "significant change" in government wage policy and that the U.M.W. would accept the new policy.

This letter is now directed to the Federal Bureau of Investigation, the Federal Reserve Board and the Federal Reserve Bank of New York. Lewis wrote: "In the end, and for the purpose of adjusting and settling the present issues now in dispute and for the purpose of procuring a new basic wage agreement for the industry, we will continue to work for the ensuing 30 days."

Notification to Operators  
The notification to the operators concerning wage talks was sent to Ezra Van Horn, chairman of the Operators' Negotiating Committee of the National Bituminous Coal Wage Conference in Cleveland. Lewis added that he would "be prepared to receive prompt acknowledgment" with the request for the conference.

Questions 30-Day Delay  
Lewis said that he would not call a 30-day strike unless the operators agreed to a 30-day delay now necessary for the War Labor Disputes Act. He said, "since the War Labor Disputes Act still is in effect, the statute books of the United Mine Workers of America are desirous of meeting the requirements."

I know of no problem as important to the nation as that of its defense in the times ahead. For the sake of everything we hold dear, let us not be the only one to disarm."

#### Will Observe the Effect of A-Bomb Against Seapower When Bikini Is Hit

By ELTON C. FAY  
Washington, March 2 (AP)—The biggest brass plan to witness the forthcoming test of the atom bomb against seapower in the Pacific. It was learned today that three of the four members of the joint chiefs of staff will attend the experiments at Bikini Atoll, with the idea of making a first-hand estimate of the A-Bomb's effect on existing armaments and strategy. General Dwight D. Eisenhower, Army chief of staff, has announced he would observe the tests. Chief of naval operations, said he was planning to attend and the same report came from General Carl Spaatz, commander of Army air forces. However, at the White House it was said that Admiral William D. Leahy, presidential military adviser and fourth member of the joint chiefs of staff, probably would not go to Bikini. Officials said they knew of no plans to observe the test.

#### City Contingent To Leave Monday For Induction

Kingston's draft board will send another peacetime contingent to an army induction center in Albany Monday morning, for immediate induction into the armed forces. At the same time another contingent will leave for Albany for pre-induction physical examinations. Members of both contingents will be men in the 18 year old group. The contingent for immediate induction will number ten men, while the pre-induction group will number 14. The two groups will leave the office of the draft board at 10 o'clock this morning, making the trip to Albany by bus.

#### Seeking Agreement On Proviso Aimed At Franco's Doom

#### U.S., Great Britain, France Reported Split on Issue of What Spaniards Are Approached

Washington, March 2 (AP)—Britain, France and the United States pressed today for final agreement on a joint declaration encouraging Spaniards to overthrow Generalissimo Franco. But the question was: Which Spaniards? Diplomatic representatives of the three powers were intent on getting the proposed pronouncement ready for public release this week-end, but France and the United States were reported split on the issues of what elements to address in the manifesto. French Embassy Counselor, Armand Berard, conferred for 80 minutes late yesterday afternoon with Paul Culbertson, State Department chief of western European affairs, but no final agreement was reached. Earlier, the state department confirmed that Britain and France had "approved in principle" the U.S. proposed declaration reliably reported as spurring Spaniards to set up a broadly representative interim government in Madrid. 1. Calling national elections. 2. Declaring political amnesty. 3. Providing freedom of religion, assembly and press. Full Recognition Promised In return, the new government would receive full economic and diplomatic recognition by the three powers. The proposal was understood to leave the tasks of changing the present Spanish government to the Spaniards themselves. It was indicated there would be no immediate break with Franco until the tri-power appeal for a change was answered. Differences between the French and U.S. viewpoints were reported hinging on a description of the Spaniards to whom the declaration would be aimed. At present, it was learned, the American proposal is addressed to the Spanish people "inside or outside the Spanish government."

#### Pauley Spurns All Bids He Withdraw

#### Californian Waging Bitter Battle Despite Pessimism in Democratic Camp

Washington, March 2 (AP)—Edwin W. Pauley flatly refused again today to quit his fight for confirmation as Undersecretary of the Navy, although Democratic leaders said they expected his name to be withdrawn. Pauley was reported unyielding under pleas by administration lieutenants that he pull out of the fight, and he gave no encouragement to proposals that he arrange a recall of his nomination before hearings on his qualifications resume next Wednesday. The "out" proposition presented to Pauley was described in this way by one Democratic senator who withheld his name: Pauley would submit to the Senate Naval Committee, which is investigating his qualifications, a formal statement that unfounded charges were made against him by a series of witnesses who testified before the committee. Pauley then would announce that while the charges had not been proved he felt that the controversy raised over his appointment would impair his usefulness as Undersecretary and therefore he was asking President Truman to withdraw his name. Some Democrats who have followed the hearings closely said this appeared to them the most graceful way out of the difficult situation presented by what they

#### Six City Employees Bring Action to Have Their Wage Increments Restored

Papers were served on Mayor W. F. Edelmuth and other city officials today in an action brought by six members of the City Employees' Union, Local 316, to have restored regular salary increments which they claim have been withheld since the first of the year. The six employees bringing the suit are C. LeRoy Brower, George Zellmer, John Scharp, Richard Williams, Patrick Walsh and Mrs. Leonia Feistel. The employees are represented by District Attorney N. LeVan Haver.

#### Is Second Action

This is the second action to be brought against the city by employees. The first, which was argued recently before Supreme Court Justice Harry E. Schirick, was brought by the police and firemen to have the pay increases they had been receiving and which had been withheld since the first of the year restored. The police and firemen are represented by Attorney Francis Martocci, while Corporation Counsel Arthur B. Ewig appeared on behalf of the city. Decision Forthcoming Judge Schirick is expected to shortly hand down a decision in the police-firemen action. At the hearing before Justice Schirick in Albany several days ago it was brought out that the pay increases had been included in the city tax budget for this year, but when a taxpayers' action was brought, the budget was declared unconstitutional as it exceeded the two per cent tax limitation law. As a result of the court's decision in the taxpayers' suit, a new budget was drafted by Mayor Edelmuth, which was adopted by the Common Council. When the budget was streamlined to come within the two per cent limitation, all salary increases granted last year were dropped from the budget. It is also alleged that regular salary increments were also cut out of the budget. At the time the new budget was adopted the city authorities were warned by George E. Verry, representing city employees that if salary increases and increments were omitted from the budget that it would result in action being brought against the city.

#### Speed for Efficiency

The 50-mile-an-hour speed limit, the conference proposed, could be raised "to obtain maximum efficiency in the use of the new types of highways which are now planned and to take advantage of progress in the design of motor vehicles." Discretion would be given to the traffic commission to regulate the limit. Thirty-five miles an hour is the present limit. Before the war, speeds in excess of 40 miles an hour were considered presumptive evidence of reckless driving. Signs Bills Meanwhile the governor signed: 1. #### Governor Dewey Expected to Hand Legislature Safety Program in Near Future

Albany, N. Y., March 2 (AP)—Governor Dewey is expected to hand the legislature a traffic safety program soon that will require periodic motor vehicle inspections and a 50-mile-an-hour speed limit. These recommendations were approved unanimously by a conference of 200 officials from throughout New York summoned by the governor to draft a permanent anti-accident campaign. The parley's chairman, Alger B. Chapman, commissioner of taxation and finance, will submit the meeting's recommendations to the governor, who is expected then to outline suggested legislative action. The principal other proposal backed by the officials at a two-day meeting concluded last night was for the establishment of a state division of safety in the executive department. The division would coordinate all state-local action, and would coordinate all state-local action, and would coordinate all state-local action.

#### Sedan Driven by Army Man Collides With Tractor Loaded With Freight

Five persons were injured, two of them seriously, when a Pontiac sedan collided with a tractor-trailer on Route 9-W, about a half mile north of Marlborough at 10:45 o'clock Friday night. State Police from Highland reported that the tractor-trailer was owned by the Ontario Freight Lines of Syracuse, and was being operated by Herman Tessier, 42, of Syracuse, while Robert Robbins, 20, of Wappingers Falls, home on a furlough from the U. S. Army, was driving the sedan. The tractor-trailer was proceeding north with 11 tons of freight, and according to the troopers, was struck while on the east side of the highway, by the sedan which was traveling south. Tessier was removed to St. Vincent's hospital at Poughkeepsie. Robbins was taken to the hospital at Poughkeepsie. Continued on Page Two

Funeral services will be held from the home on Sunday afternoon at 2 o'clock with burial in Chestnut Hill cemetery at Pine Grove.

### Challenges Removal of Equipment

Russia Told Off After Byrnes Speech About Tougher Attitude in Future Dealings

#### 'Hostile Act'

Navy Uses Caustic Tone Calling Act of Reds 'Unjustifiable'

Washington, March 2 (AP)—The United States told Russia off today for two Soviet attacks on Navy planes off the Manchurian coast and for the Red Army's removal of Manchuria's industrial equipment. The protests provided an unexpected follow-up to the speech of Secretary of State Byrnes Thursday foreshadowing a much tougher approach in future dealings with Moscow. In protesting the attacks on American planes, the Navy used very strong language. It termed one incident a "hostile act" and called the other "unjustifiable."

The Navy's protest coincided with a State Department declaration that Russia had no right to strip industrial equipment from the former Japanese puppet state of Manchuria. The attacks of American planes both were reported to have taken place in the Yellow Sea area, and the Navy pointed out that under the Russo-Chinese treaty of last August Dairen is supposed to be a free port, open to all nations, but administered by China. According to the Navy, the first Soviet attack on a U. S. plane in this area took place last October, and the second last month. When the first incident was protested, the Navy said, Russian authorities replied the Soviets were responsible for defense of the Port Arthur area under the treaty with China, and that American planes must not approach within 12 miles of the coast without previous permission.

Navy Rejects Reply  
The Navy rejected this reply, pointing out that the American plane was 25 miles at sea when fired on by Soviet aircraft, and that Russia had never notified the United States it intended to apply a 12-mile limit in Soviet waters. Continued on Page Two

### Strikes at a Glance

(By The Associated Press)

Nation's labor disputes keep idle approximately 810,000.

Major developments:

Automotive—General Motors strike, 102 days old, to continue "until G.M. meets its public responsibility," says C.I.O. United Auto Workers leaders after C.I.O.-U.A.W. G.M. Council rejects management's "maximum proposal" for settling walkout; negotiations continue today, with union to report to council. Utility—Threatened power strike in Pittsburgh, set for Tuesday, averted as independent union votes to arbitrate wage dispute. Milk—10-day strike of dairy workers in Detroit appears near end as C.I.O. union and creamery negotiations agree on wage increases of 18 cents an hour; strikers meet on ratification of pay boosts and other proposals. Railroad—Strike of Southern Pacific's 3,500 engineers and trainmen in Texas and Louisiana, set for this morning, called off as company and brotherhood officials reach an "amicable settlement" in issues, involving awards; President Truman names emergency board to investigate some 400 cases still in dispute. Electrical Equipment—Hopes for peace in C.I.O. Electric Workers strike in Philadelphia as strikers discontinue mass picketing in front of strikebound General Electric plant.

## Spirit of Uncertainty Rides in American Zone

By DEWITT MACKENZIE  
A.P. World Traveler

Frankfurt, Germany, March 2.—There is abroad in the American zone a spirit of uncertainty that strikes me as being a grave embarrassment to our military government which, it should be noted, has one of the world's toughest jobs.

I refer to a rather widespread feeling in this zone, and one finds it registered among some of our Allies, that the American public is weakening in its earlier determination to occupy Germany militarily come hell or high water until all the Nazi and Prussian aggression had been knocked out of it.

This feeling has been engendered by a widespread and insistent demand by the home folk for immediate demobilization of soldier relatives, coupled with the lack of adequate replacements for those demobilized.

**Haven't Altered Views**  
You hear the comment that many Americans are reverting to isolationism. I don't believe for a moment, however, that the American public has altered its views about handling Germany. Surely there has been a misinterpretation of their attitude.

It's hard to see how anyone could fail to regard with sympathetic understanding a desire to get the release of our boys who have been long in service abroad, for that's natural.

However, distance often distorts vision and the United States is a long way from the occupied zones of Germany.

Thus, we find a considerable amount of uncertainty over here regarding just what policy the American public wants to pursue and uncertainty, of course, is a bad thing for morale.

**Looks Like Weakness**  
It's bad for the occupation forces and it's bad for the Germans, who are prone to look on it as a sign of weakness.

There is no call to deliver a homily in this column on the rehabilitation of Germany and Europe as a whole.

The Allied leadership has made the needs quite clear. Reformation of Germany and the politico-economic reconstruction of Europe depend upon a long term occupation of the Reich by the Allies—by all the major Allies. The alternative is continued disorganization and ultimately more war.

**30 Year Job for British**  
The British appear to be set for at least a 30-year occupation. One assumes that the Russians and French have similar intentions.

Your columnist also assumes that the people of the United States have the same aim, but it would be most useful if this could be demonstrated for the benefit of the doubtful over here.

I was chatting with an American officer of high rank yesterday and asked him what he would think of American abandoning occupation of Germany.

He cast a caustic eye on me and replied:

"Well maybe it would be a good thing from one standpoint. It all depends on what the people back home want to achieve. So long as we maintain an army abroad and thus separate families we are lowering the birth rate in the United States. Perhaps on the whole the United States would prefer not to trouble with long

military occupations but to fight a new war every 20 years." He was drawing the long bow, of course, but his remarks provide food for reflection. So far as Germany is concerned she shouldn't fight again for 20 years because she is too badly smashed up. Still in due course, she will recover and then the question of peace will depend on her morals at that time, and her morals will in turn depend on her associations and education between now and then.

## U. S. Raps Russia For Plane Attacks

Continued from Page One

occupied territory. Moscow never answered this protest.

It was the incident the Navy characterized as a "hostile act." The American plane involved was a Mariner patrol plane on a routine flight to check on shipping in those waters.

The second episode occurred February 20 when two Russian fighter planes overtook another Mariner near Dardanel and gave warning bursts of machine gun fire for about 10 minutes. The plane was not hit, however, and was able to return to its base at Tsigtso, China.

**Pilot to Be Disciplined**  
The Navy declared Russian action in this case was "unjustifiable," but acknowledged the American plane's pilot had disregarded orders and had gone inland from the coast. Disciplinary action has been instituted against the pilot, the Navy said.

In neither instance did the Navy planes return fire, the department declared.

The specific reason for the State Department's broadside against Soviet removal of industrial equipment from Manchuria was not indicated. However, it did follow closely after the assertion of a Red Army commander at Mukden this week that the equipment was being removed in accord with a Big-Three agreement.

**No Secret on War Booty**

The State Department said flatly "the United States has no agreement, secret or otherwise, with the Soviet government in regard to war booty in Manchuria."

"Some time ago we informed the Soviet government that disposal of Japanese external assets, such as industries in Manchuria, was a matter of common interest and concern to those Allies who bore the major burden in defeating Japan and that it would be most inappropriate at this time to make any final disposition of Japanese external assets in Manchuria."

Diplomatic observers noted the reference to "Allies who bore the major burden in defeating Japan" and interpreted it as a too subtle reminder that the Red Army did not get into action until a week before Tokyo announced unconditional surrender.

**Predict Quiet Week-End in Philly Labor Fight**

Philadelphia, March 2 (AP)—Hope was held today for a peaceful week-end with continuance of the truce which ended two days of violence and disorder on the General Electric strike front.

A union spokesman said mass picketing demonstrations were called off "pending developments in the situation locally and in view of possible developments nationally."

Only eight pickets paraded before the G.E. plant; scene of turbulent street-fighting for two days. The city had posted 375 police officers on guard to enforce a court-imposed ban of mass picketing.

Fog, rain and an order prohibiting G.E. strikers from parading brought the quiet today. There was no immediate indication of action to carry out a threatened C.I.O. general sympathy strike.

for President Truman to make the long trip to the central Pacific.

**Makes Two Points**  
"Vice Admiral W. H. P. Blandy, commander of the joint task force for the test, took occasion at a news conference last night to make two points."

1—The test of the bomb on warships, aircraft and Army Ground Force equipment is a "thoroughly joint" job, with all services participating.

2—"There is no desire to rig this test to favor particularly the bomb, the ships or aircraft."

The latter was an apparent reference to recent public suggestions that the target ships might be deployed in a manner which would minimize the effect of the blast. Joint task force officials assert that it is neither planned nor expected that the first blast or even the second will destroy the entire fleet.

The first test calls for an Army Air Forces bomber to drop an A-Bomb fused to explode in the air above the target fleet. In the second test, the bomb is to be exploded at water level. In a third experiment, at some undecided future date, the bomb will be detonated under water.

Experts are inclined to look upon the third test as the ship-killer, with the underwater explosion transmitting pressures to crush in the hulls of the vessels.

## Attacks on Spain Communist Plot Franco Declares

Dictator Says Movement Organized International Plot to Drag Down Spanish Nation

Madrid, March 2 (AP)—The Franco government declared today that the closing of the Spanish frontier by France and anti-Spanish demonstrations abroad were part of an international Communist plot designed to drag Spain "down into disorder and chaos."

In a 2,000-word communique issued after a lengthy Cabinet meeting, the government said the "suffering French people" were not responsible for what it termed an anti-Spanish campaign.

"It is necessary to make known once again that, under the appearance of false humanitarianism and simulated compassion, there is being developed a new campaign of snares and calumnies against Spain, of which the promoter and active agent is international Communism," the communique said.

Protests against the regular execution of 10 Spanish anti-Fascists were inspired by Communists who glorified "vulgar and common criminals as martyrs of a political idea," the statement asserted.

The communique said the protests followed the regular execution of 10 Spanish anti-Fascists who glorified "vulgar and common criminals as martyrs of a political idea," the statement asserted.

Cpl. Raymond G. Dempsey, son of Mr. and Mrs. William Dempsey, Port Ewen, is serving as dispatcher in the labor division of Gen. Mark W. Clarke's Headquarters, United States forces in Vienna, Austria. Cpl. Dempsey entered the army in June, 1943, and was sent overseas in January 1945. He is a graduate of Kingston High School.

## Show Cause Order Issued in Case Of City Employees

An order to show cause, returnable at Albany on Friday, March 8, was signed this morning by Supreme Court Justice Roscoe V. Elsworth, under which C. Le Roy Brower, individually and as president of Kingston City Employees Local, No. 316, A.F. of L., and other city employees similarly situated, seek to compel the payment of a \$240 salary increment which was voted by the Common Council last year, and payable as of January 1, 1946.

The increase has been withheld by the city administration on the grounds there are not sufficient funds on hand to pay the increases because of a court order which prohibited a budget in excess of the two per cent constitutional limitation for 1946. A budget was adopted in excess of the two per cent limitation on assessed valuations but a taxpayers action was started and the Supreme Court held that budget was unconstitutional and a second budget, reduced to meet the requirements of the constitution was then adopted. Following adoption of this reduced budget in which no provision was made to meet the increases in salary, city employees were not paid the increases which had been voted in 1945 and actions were then commenced.

The present action is brought by C. Le Roy Brower, individually and as president of Local 316 of the State, County and Municipal Employees Union, and all other city employees similarly situated whose compensation and salaries are under the jurisdiction of the Common Council of the City of Kingston, against Mayor Edelmann, City Treasurer Byrne, City Clerk Fenelly and all other officers of the Municipal Civil Service Commission of Kingston.

The petition stated that since January 1, the increment of \$240 voted in December 1945 to be paid beginning January 1, 1946 has been withheld and not paid. It alleges that no provision was made for payment of such increment in the 1946 budget and the petition seeks to compel the city to make the payment.

N. Le Van Haver for the petitioners appeared before Justice Elsworth this morning seeking the show cause order which will bring the matter to Supreme court next Friday. At that time Justice Bergan, who is holding special terms this month in Albany, will hear the matter.

Under the order of Justice Elsworth the petitioners seek to bring the defendants into court to show cause why the increments voted by the Common Council shall not be paid.

Another action has been commenced by members of the Police and Fire Departments to compel the city to pay increases which have been authorized.

Others who have specifically joined in the present petition with Mr. Brower are George Zellmer, heating plant engineer; Richard Williams, head janitor; John J. Scharp and Patrick Walsh, steam boiler firemen; and Leona V. Fiessel, city clerk.

said is certain defeat of the nomination if it comes to a vote.

But Pauley evidently was thinking of no such retreat.

In fact, he told reporters that after a conference with Democratic National Chairman Robert E. Hannegan, at which Pauley said he discussed "votes in the Senate," he felt his chances for confirmation "were better than ever."

However, Pauley's optimism reportedly was not shared by Hannegan and other party leaders. One senator said that Hannegan was informed that defeat of the appointment is certain on a test vote, with a dozen or more Democrats and practically all of the Republicans lined up against him.

## G.M. Strikers Will Hold Out Until They Get Demands

Detroit, March 2 (AP)—General Motors employees were still on strike today, with union leaders reemphasizing that, despite recent hopes of settlement, the 102-day walkout would last "until G.M. meets its public responsibility."

The 200-man C.I.O. United Workers G.M. Council, representing 175,000 production workers who struck November 21, yesterday turned down management's "maximum proposal to date" stating it "failed to meet the standards set by the recommendation of the President's Fact-Finding Board."

Another negotiating session is being held today between union and corporation representatives and Special Federal Mediator James F. Dewey. The union negotiators will report back to the council after the session, which earlier authorized them to meet with management spokesmen but yesterday to "explore further possibilities of a settlement."

In rejecting yesterday's offer, the council also passed resolutions "to continue this strike in its full force and strength until the corporation meets the fair and reasonable terms" of government recommendation, and to ask C.I.O. President Philip Murray to formulate a "policy of pressure," against G.M.

In spite of the hopes for settlement which attended negotiations Thursday and Friday, U.A.W. Vice President Walter P. Reuther stated that at least four issues are holding up agreement from the union's standpoint. These he listed as:

Seniority in promotions and transfers; union security; wages and local demands.

The union still demands a 19 1/2 percent hourly increase (17 1/2 percent) while General Motors' "highest offer to date has been 18 1/2 cents (16 1/2 percent)."

General Motors officials made no comment on the progress of negotiations.

Several votes were taken at yesterday's meeting, the leaders stated, "because we wanted to be sure so if any single person had objected we would know." There were no dissenting votes from the body's decision to reject General Motors' offer, Reuther added.

## British Press Russian Delay in Iran Exodus

London, March 2 (AP)—The Manchester Guardian said today that Russia's refusal to remove all Red troops from Iran is "a breach of treaty" and added that the Soviet explanation for breaking the British-Soviet-Iranian accord "had better be good."

## Flashes of Life Sketched in Brief

Simple?

Boonville, Mo., March 2 (AP)—"A rag, a bone and a hank of hair" may make a woman according to the Kipling tradition but all it takes to make a motor are 13 thumb tacks, five paper clips, a little insulated wire and a two-volt battery for power according to cadets at Kemper Military School who have made such a motor. The contraption actually runs.

Los Angeles, March 2 (AP)—One way to get into a bank after hours:

Drive your car through the front door.

Mystified police are trying to determine who drove through the front door of a Carthay Circle bank. The unmistakable evidence were there, skid marks and a shattered door. But no car was to be found.

Another baffling fact confronting the police was the failure of the crash to set off the burglar alarms.

Floral Tip

San Diego, Calif., March 2 (AP)—Army Tech. Sgt. Edwin Sullivan of Muskegon, Mich., has kept a vow. He bought two dozen roses for the first waitress to serve him on his return from 11 months overseas with the 30th Bomb Squadron.

An Army regular, Sullivan said: "I like to show my appreciation for American waitresses. They are the nicest in the world."

Dorothy Lasky, a hotel waitress, was the recipient.

Tables Turned

Chicago, March 2 (AP)—Four police squad cars rushed to the Wash Railroad freight house after receiving a report that two railroad detectives had trapped burglars in an elevator by turning off the power when it was between floors. The police turned the power back on, bringing the freight car to the main floor, and out stepped the two railroad detectives.

They explained that while searching the building for burglars they had been trapped in the elevator, and they believed the thieves were the perpetrators of the act.

Dog Gone

Farmer City, Ill., March 2 (AP)—A nine year old dog which daily for six years visited its master's automobile salesroom, now refuses to enter the place—and the master blames it on a paint job.

Each day since 1939 the dog parked on a chair in the salesroom, but since the salesroom floor was painted a red and gray checker-board design, he's steered clear of the establishment.

Cottage Meetings Are Scheduled for Lent

The Flatbush Reformed Church has scheduled Lenten cottage meetings, with the general topic, "Springs of Living Water" as follows:

March

7—Mr. and Mrs. Chester Pearson's.

14—Mr. and Mrs. Klotz's.

21—Mrs. Ketterson's.

28—Mr. and Mrs. Harry Davis.

April

4—Church hall, preparatory service.

11—Mr. and Mrs. Howard Osterhoudt's.

19—Good Friday service at the church.

Time for the meetings and services is 8 p. m.

### RED CROSS DRIVE

Ulster County Chapter American Red Cross has opened its appeal for support of its annual fund campaign. It appeals on the basis of continuing need for services to the armed forces, and the veterans, with added emphasis on the need of advancing its health, safety and disaster preparedness program. Your contribution will be your way of standing by where the need is great.

War doesn't leave an area to build a fence around and forget. This war left us with the atomic bomb. It left us, too, with the soldier who must spend weary months learning to get along with a paralyzed back—the veteran who must catch up somehow with the years he lost while patrolling the Pacific—the MP who must walk the streets of Berlin carrying a sub-machine gun.

We, as individuals, cannot stop the business of life to help all these men; but their happiness, and ultimately ours, depends on making help available.

All around the globe our soldiers and sailors sing the praises of the American Red Cross. Every place which has been stricken by fire, flood, earthquake or pestilence remembers with gratitude the promptness and efficiency with which the Red Cross came to the rescue.

Ulster County's quota is \$46,000 and the City of Kingston's share is \$18,000. This amount is half of the amount raised last year.

Because of its great work of mercy, the Red Cross financial drive is a challenge to our generosity and to our humanity. Residents of the City of Kingston and the townships of Ulster County will meet this challenge.

### VETERANS' TRAINING PROGRAM

The On-the-Job training program of the Federal Government is in operation in this city at the Fuller Shirt factory. The Fuller Company is to be congratulated for its prompt action.

Any establishment, large or small, which qualifies as a reputable concern and can offer up-grading employment, can obtain a certificate of eligibility. There is coverage for industry, retailing, wholesaling, servicing, transit, office work, and in fact practically everything which offers opportunity for a veteran to "start from scratch" and through training and experience progress to a skilled position.

Under the program veterans receive a certain weekly amount of pay from the government and also a certain amount of wages from the place where they are employed.

Twenty-two local veterans, who have received their honorable discharge from the armed forces, have taken advantage of the offer and are now actively engaged in learning to operate high powered machines in the manufacture of white shirts at the Fuller plant.

If this program could be adopted by more industries, there would be a great many placements of veterans.

### HOME GARDENS

Although this year's home gardens may not be called victory gardens, they are essential to following through on victory, the former chairman of the state victory garden council declares.

Continuation of home gardens is being urged to provide food at home and to aid the starving people of other lands. The food situation is as serious now as it has ever been.

The Department of Vegetable Crops of Cornell University points out that now is the time to consult seed catalogues, plan the garden layout, order seeds and soon to start some plants indoors if desired.

The important thing now is to start planting the garden with the aim of getting maximum production this year.

### RUBBER

There will soon be rubber again—crude rubber from the Orient, and all the wonderful things that can be made from it, with special emphasis on Junior's rubber boots. We have had some such things in recent

## 'These Days'

By George E. Sokolsky

### WHAT'S IN A NAME?

Mr. Justice Henry G. Wenzel, Jr., presiding over a name-changing case in the Supreme Court of Queens County, rendered this decision:

"The court feels that this matter should be left until the boy has reached the age of discretion, or at least until he is 21, by which time, if I may borrow from the lexicon of modern youth, he may not choose so 'corny' a name as is now sought to be inflicted upon him. The use of a pen name does not require the sanction of this court, but I would point out that the use of their own name has not been a deterrent or embarrassment to Walter Lippman, George Sokolsky or a dozen others I could mention."

The case in point was over a 16-year-old boy, named Leon Arden Sussman, whose parents want him called hereafter, Leon Arden. The judge said, "No!" The parents found "Sussman" cumbersome but Arden "Anglican." By "Anglican," they meant English. It is a queer, if not alien use of the adjective. The parents might have told the judge that Sussman sounds Jewish and that their son wanted a name that did not sound Jewish. I would recommend O'Brien, which no one could mistake.

The judge made reference to my name and I must admit that sometimes when I hear my name pronounced, I am tempted to change it to something "Anglican" like Montmorency. My father's family had no patronymic until his generation. They were known as Solomon the son of Isaac, according to the Biblical style. My paternal grandfather was known simply as the Rabbi of Kuznetz. The name, Sokolsky, therefore is not in my marrow as the name Hapsburg or Delano would be for those who own such designations. Certainly the name, Sokolsky, is descriptive neither of my race, religion or nationality.

Shall I change my name for convenience? Shall I call myself Sokol or Sokell or Douglas? I know some Feinstains who have become Stones, some Epsteins who have taken on an "Anglican" moniker as this Sussman boy wanted to do. Maybe were I born Lifscutz, I could call myself Lofton. Perhaps I might call myself O'Toole.

Were it not that it is so convenient, I might do it. It is the convenience of name-changing that makes it so reprehensible. It is living a lie for convenience. The name means nothing but the lie means everything. When a man called Cohen changes his name to Coe, he deserts a glorious heritage for something cheap. His ancestors were priests in the Temple in Jerusalem. A kingdom of priests shall ye be. They can trace their blood back to Moses and Aaron. Why would anyone want to throw pride of heredity over for convenience? And what is convenient about it?

No man can be other than himself, nor can he live his life falsely. I know—those who pass through life betraying their mothers. Maybe they get into a club that way or into some hotel that does not want them. Or maybe, they fool a bigoted mother-in-law, or land a job with one who does not employ their kind knowingly. But they do not fool themselves. They know that they are sleekly taking advantage; that they live a life of pretense.

A young lady once applied for a job with me and gave some such name as Keats. I looked at her and said, "Sister, I'd like to give you this job but can't, because I'd never believe a word you said to me." The young thing was shocked until I explained to her that I was sure her name was not Keats. So she broke down and told me. It was no more cumbersome than mine own. I hired her.

No, Leon Arden Sussman! Do not try to be an "Anglican." Be what you are. Judge Wenzel was so right. Einstein did not change his name to Teoland, Nimitz did not change his name to Nim; Rachmannoff did not call himself Richmond. The man who takes a single step to "cover up" his ancestry has nothing in his soul.

### THE TREATMENT OF ASTHMA

It is only in recent years that physicians have given thought to the cause or causes of asthma, being satisfied with giving relief during an attack as the cause of asthma was unknown or because there were so many different causes that seemed to enter into it. Today, in a general way, we say that asthma is caused in most cases by (a) defects of nose and throat, (b) allergy to various substances—foods, furs, feathers, pollen, and (c) emotional disturbances.

In the Canadian Medical Association Journal Dr. G. D. Stanley, Calgary, states that there are various stages and various causes of asthma and places asthmatics in seven groups.

Group 1—Irritation of lining of nose and throat, causing spasms and swelling by dust, smoke or other irritating substances but not by allergic irritants such as pollen or animal hair.

Group 2—Cases due to allergy, but where no infection, such as a cold, is present.

Group 3—Where there is irritation of lining of nose and throat as in Groups 1 and 2, but frequent attacks of the common cold occur.

Group 4—Same as Group 3 but infection present.

Group 5—Chronic bronchitis present and mucous always present in the tubes.

Group 6—Chronic bronchitis has developed into a condition where tiny bronchial tubes have lost their power to expel air out of lungs.

Group 7—In this group the large bronchial tubes are affected.

Dr. Stanley then outlines the specific or special treatment for each case such as correcting defects, desensitizing those with allergy, avoiding hot baths at bedtime, breathing exercises, drainage by means of the bronchoscope, with use of the hypodermic injection of adrenalin, inhaling 100 per cent oxygen or injection of aminophyllin into a vein (as mentioned in a former article), to stop an asthmatic attack.

"There is no one single agent or procedure that can be accepted as all-sufficient at any stage of asthma. Its treatment is comparable to that of rheumatoid arthritis in that it demands the combination of all available methods, and still carries a hope for more to follow."

years, but made of poor material and pitifully short-lived.

Really, there is going to be a lot of satisfaction in seeing so many of the so-called necessities of life come trooping back again, as the war fades and the treasured foreign goods are restored.

Sometimes we think there was merit in the ancient Roman practice of changing the head of government every six months.

### "At Century's Turn"

By H. L. VAN DEUSEN

Kingston's first bus service over the abandoned Colonial Division of the trolley road was put into operation on Sunday, January 17, 1926, but it could hardly have been described as a full blown success.

The buses ordered by the trolley road had not been received, and the company was forced to rent three buses. One of the buses broke down, and the others could not climb the steep Hasbrouck avenue hill, and were forced to detour through Murray street to Delaware avenue.

This, by the way, is now part of the route of the Hasbrouck avenue bus line.

It had been planned to operate two buses over the Colonial Division, and a third bus over the uptown loop.

While buses were used over the abandoned Colonial route, trolley cars continued to operate over the Broadway line of the trolley road.

It was not until some time later that all of the trolley cars were taken off, and the present bus system inaugurated.

Turning from buses to politics on January 1, 1926, Mayor Morris Block announced the reappointment of the members of his cabinet for that year.

Among those reappointed were Judge A. T. Clearwater, city historian; A. A. Styles, city clerk; Judge James Jenkins, corporation counsel; Harry S. Jacobs, city treasurer; William B. Martin, city assessor; James J. Murphy, Jr., deputy city clerk; Richard J. Murphy, collector of unpaid taxes; Joseph Mitchell, superintendent of the city hall, and Joseph A. Shepard, sealer of weights and measures.

The mayor on January 12, of that year, filed the appointment of David Burgher as a member of the fire board to fill the vacancy caused by the expiration of the term of William S. Elings, the John street druggist.

## Flashes of Life Sketched in Brief

Simple? Boonville, Mo., March 2 (AP)—"A rag, a bone and a hank of hair" may make a woman according to the Kipling tradition but all it takes to make a motor are 13 thumb tacks, five paper clips, a little insulated wire and a two-volt battery for power according to coders at Kemper Military School who have made such a motor. The contraption actually runs. Lt. R. H. Garnett, Kemper physics instructor in whose class the motor was made reports that it generates about three hundredths horsepower.

The Hard Way Los Angeles, March 2 (AP)—One way to get into a bank after hours: Drive your car through the front door. Mystified police are trying to determine who drove through the front door of a Carthay Circle bank. The unmistakable evidence were there, skid marks and a shattered door. But no car was to be found. Another baffling fact confronting the police was the failure of the crash to set off the burglar alarms.

Floral Tip San Diego, Calif., March 2 (AP)—Army Tech. Sgt. Edwin Sullivan of Muskegon, Mich., has kept a vow. He bought two dozen roses for his return from 11 months overseas with the 30th Bomb Squadron. An Army regular, Sullivan said: "I like to show my appreciation for American warresses. They are the nicest in the world." Dorothy Lasky, a hotel waitress, was the recipient.

Tables Turned Chicago, March 2 (AP)—Four police squad cars rushed to the Wabash Railroad freight house after receiving a report that two railroad detectives had trapped burglars in an elevator by turning off the power when it was between floors. The police turned the power back on, bringing the freight car to the main floor, and out stepped the two railroad detectives. They explained that while searching the building for burglars they had been trapped in the elevator, and they believed the thieves were the perpetrators of the act.

Dog Gone Farmer City, Ill., March 2 (AP)—A nine year old dog which daily for six years visited its master's automobile salesroom, now refuses to enter the place—and the master blames it on a paint job. Each day since 1939 the dog parked on a chair in the salesroom, but since the salesroom floor was painted a red and gray checker-board design, he's steered clear of the establishment.

Cottage Meetings Are Scheduled for Lent The Flatbush Reformed Church has scheduled Lenten cottage meetings, with the general topic, "Springs of Living Water" as follows:

March 7—Mr. and Mrs. Chester Pearson. 11—Mr. and Mrs. Klothe. 21—Mrs. Kettererson. 28—Mr. and Mrs. Harry Davis. April 4—Church hall, preparatory service. 11—Mr. and Mrs. Howard Osterhods. 19—Good Friday service at the church. Time for the meetings and services is 8 p. m. The this always travels in large flocks, each one sometimes containing as many as 15,000 birds.

## Child Study Club Hears

Paper by Mrs. Cloonan  
Child Study Club 2 met with Mrs. John Bott, Andrew street, Thursday evening. A short business meeting was conducted by Mrs. George Chilson, chairman. A straw ballot was taken for the election of officers for the coming year.

The paper for the evening was given by Mrs. Edmund Cloonan, entitled "Family Goals for the Little Child." Mrs. Cloonan pointed out that the child learns most of what he gets in the years from 1 to 6, the span of greatest learning. At this time the parents have the greatest opportunity to guide the child. She warned that parents should never force or decide for the child but try to understand him. She said that it is not important what parents do for the child but what they do with him.

At the close of the meeting refreshments were served. The next meeting, March 14, will be at the home of Mrs. Gilbert Schaffner, East Chestnut street. Mrs. John Bott will give the paper on "The Family Goals for the School Child."

## BRIDEGROOM HANDED FAIR-IN-LAW'S BILL

A situation that has occurred more than once is that of the husband who unexpectedly has bills for all the flowers at his wedding sent him. This letter describes an even more unfair advantage taken of him. "My son has been sent the bill for the flowers used in decorating the church as well as those for the bride's attendants and a second bill for the 'hard ingredients' used in the punch at the reception. The total is a sizable sum and he is obliged to appeal to us to be him out. As we stretched a point to give him a check for the wedding trip, we can not assume that now, is there some way to get out of paying it without causing unpleasantness?"

The bridegroom never should be expected to pay for the decoration of the church. Although there are a certain few communities in which it is customary to pay for the bridesmaids' bouquets as well as the one for his bride, nowhere are the church or house decorations, the collation or the champagne or substitute correctly included in the obligations of the bridegroom. It is the duty of the bridegroom to enclose both bills in an envelope addressed to his father-in-law with an explanation that his receiving them evidently has been a mistake.

Dear Mrs. Post: Is it proper for a hostess (aided by her daughter) to preside at her own tea table when having as many as twenty guests?

Answer: I think it would be better for the hostess to stay behind the tea table and let her daughter greet the guests and take them over to her. Remember, this is an occasion where the hostess is not expected to rise for any guests.

One Exception to the Rule  
Dear Mrs. Post: May a young woman accept a Japanese kimono from a young man who is not her fiancé, but merely a G.I. friend who has returned from overseas?

Answer: If he brought it to her from overseas, it would be very unappreciative to refuse it. In other words, this would be an exception to the usual rule.

For Mrs. Post's booklet "The Etiquette of Weddings," send 10 cents in coin and a 3-cent, stamped, self-addressed envelope to her in care of The Kingston Daily Freeman, P. O. Box 99, Station C, New York 19, N. Y.

## PADRE'S HAT TRAVELS

Traveling across Mull in Scotland to go to Iona, a minister left his hat on the rack of the bus. Returning a week later he asked the bus driver whether his hat had been found and was told he would find it on the rack where he had left it. For a week it had been traveling to and fro and nobody had touched it.

## World Traveler Is Speaker Scheduled At Salvation Army

THOMAS W. WILSON, Commissioner of the Salvation Army, territorial commander in North China, will make two appearances in this city at the Salvation Army hall, 90 North Front street, next Wednesday and Thursday, March 6 and 7, beginning at 8 o'clock. It will be the first time that a commissioner has ever appeared in this city.

Next Wednesday night he will speak on the missionary work and Thursday evening he will show

movies to the public which he has taken throughout his world travels. Commissioner Wilson has been a Salvation Army officer for 43 years and has spent much of this time in Japan, East Africa and Korea.

The career of Commissioner Wilson has been both long and interesting starting back in 1899 when he was commissioned from the International Training College in London. After that he spent six years in Manchester, England, during which time he married Lieutenant Augusta Marshall.

In 1905 Commissioner Wilson, then a captain, was transferred to Japan where he spent some 21 years, most of the time in Tokyo. He was promoted to the rank of lieutenant colonel and appointed territorial commander for British East Africa in 1926 and following this spent nine years supervising activities in his 250,000 square miles of territory.

While in Kenya, the commissioner built up the Salvation Army's personnel to a force of 200 officers and 60 cadets who were in training when he departed. He also was responsible for the erection of 40 of the army's present permanent buildings there, including the headquarters and training college. He also opened mission work in Uganda and Tanganyika.

As a result of his outstanding work in British East Africa, Commissioner Wilson was awarded the Silver Jubilee medal for distinguished service by King George V, in 1935.

During the time from 1932-42 Mr. Wilson was territorial commander for Korea and organized the Salvation Army Corps in 15 cities. Through his initiative, the organization opened the first traveler's aid hostel for young girls in Fusan, southern seaport of Korea. Then in 1941 Commissioner Wilson received his appointment to North China and the army with Mrs. Wilson for a furlough in the United States and Canada. Because of the war against Japan, he was prevented from going to China, and at the present time is carrying on evangelistic work throughout this country and Canada.

## Beautiful Music, Drama, Humor, in Uncle Tom's Cabin

"Uncle Tom's Cabin," a 93-year-old veteran of the American stage, will be presented in Kingston, Tuesday, March 5 as a streamlined, modern musical.

Produced by the Reed Lawton company the Harriet Beecher Stowe classic is due for two presentations at the municipal auditorium under the sponsorship of Kingston Post No. 150, American Legion. The regular performance is scheduled at 8:15 p. m., with a students matinee at 3:30.

Tickets are now on sale at the American Legion Memorial Hall. Mario Cozzi, former Metropolitan Opera and concert baritone, will have one of the leading roles in the cast. Other topnotchers to be seen are Dorothy Hood, Wade Dent and Eileen Kelly.

The Lawton company will have its own brass band and in a capella choir. All the immortal characters of the play—Uncle Tom, Little Eva, Simon Legree, Topsy, Ophelia St. Claire, Augustine St. Claire and Lawyer Marks.

Musical Show, Too: This beautiful musical version will be built around the songs of America's beloved Stephen Foster. The a capella choir will render such numbers as "Deep River," "Nobody Knows," "Golden Slippers" and an old-time minstrel show complete with band will be presented during the prologue.

Elaborate stage settings will depict the great scenes from the show: "Eliza crossing the ice pursued by the hounds," "Eva's Death," "Uncle Tom beaten by

## 13,914 Watch Pep Make Quick Work Of Jim McAllister

### Hartford Clouter Gains Revenge for Previous Draw: McAllister Floored in Second

New York, March 2 (AP)—The fight experts agreed today that it was a lucky break for Sal Bartolo when he won't be putting up with the featherweight championship against Willie Pep until some time in May.

For Pep, the 126-pound king of New York, Pennsylvania, New Jersey and Connecticut, was in his sharp, pre-service form last night in belting out flashy Jimmy McAllister in 2:44 of the first round in the 10-rounder in Madison Square Garden.

Had Bartolo, a two-time loser to Pep several years ago, been in the ring, as scheduled, the chances are that the result might have been the same. Bartolo was supposed to have met Pep to iron out the same claims last night but the bout was postponed last Saturday when the challenger moved into the Bostonian claimed he was ill.

McAllister had held Pep to a draw in Baltimore a couple of months ago and the Hartford, Conn., clouter made up for that deadlock—his second non-winning effort in 94 prior starts—with a vengeance.

The Baltimore negro took the opening round and once bounced a right off Willie's chin that shook the titleholder considerably. After that things changed quickly. Walloping Willie caught McAllister with a terrific right cross early in the second round and when the challenger moved into the ring's corner, Willie let go with another right to the body and Jimmy started to sag. A left hook flattened McAllister for the count.

Despite the substitution of a post-fight fight for a championship affair, a crowd of 13,914 fans turned out and contributed to a gross gate of \$63,987. Both boxers came in over the class limit, Pep outweighing his rival 129½ to 128.

Chicago—Bout between Arturo Godoy, 20, Chile, and Leo Savoldi, 20½, Paterson, N. J., declared "no contest" in the eighth round.

## Baseball Briefs

Daytona Beach, Fla., March 2 (AP)—The Brooklyn Dodgers reinforced their catching staff with the purchase of Dixie Howell from their Montreal farm team. He signed his Brooklyn contract and will join his new team today.

Southpaw pitchers Tom Seaver and Vic Lombardi have returned signed contracts, joining outfielder Augie Galan and pitcher Hugh Casey as the latest in the fold.

Pitcher Clyde King, previously classified 4-F, has been put in 1-A by his draft board.

**Rookies Satisfy Ott**  
Miami, Fla., March 2 (AP)—Manager Mel Ott of the New York Giants declared himself well satisfied with the defensive ability of newcomers second baseman Bobby Blottner and shortstop Billy Ripken.

"I still don't know a thing on how their hitting will shape up," said Ott, "but there seems no doubt about their defensive ability." George Hausman and Buddy Kerr were the regular second baseman and shortstop, respectively, last year.

**Little Scooter Rizzuto, the New York Yankees' flashy shortstop, was under doctor's orders today to rest "for at least a few more days." Rizzuto, recently discharged from the navy after a three year hitch, was forced to leave Thursday's game due to a stomach disorder.**

**St. Petersburg, Fla., March 2 (AP)—Johnny Beazley had X-rays taken of his pitching arm last night, but apparently there is no bone injury. The St. Louis Cardinals ace right-hander had complained that the arm felt "dead" after throwing two days ago.**

**West Palm Beach, Fla., March 2 (AP)—Connie Mack is anticipating the pitching possibilities of Herman Besse, latest addition to the Philadelphia Athletics. Mack announced Besse was out of the army and would report for training shortly.**

**Cooper Impressive**  
Fort Lauderdale, Fla., March 2 (AP)—Mort Cooper, who celebrated his 32nd birthday today, indicated that his twice-operated pitching arm had all of its old-time cunning when he made his first serious gestures of the spring season in yesterday's Boston Braves practice game. Cooper pitched three scoreless innings, using only 23 pitches, the first seven of which were strikes.

**Sarasota, Fla., March 2 (AP)—Although Rudy York said yesterday he was "virtually signed," the slugger first sacker was still out-side the Boston Red Sox fold today following a telephone conversation with General Manager Edie Collins.**

**Philadelphia — Leon (Bobo) Haire, 137½, Philadelphia, stopped Jeff Holloway, 139½, New York, (6).**

## Better Bowling

By Billy Sixty

**COMFORT COUNTS:** Not long ago the three-fingered bowling ball was considered "feminine"—definitely intended only for the gentler sex to better fit their weaker fingers. It afforded a more comfortable and firmer grip.

With the advance of the game, however, the three-fingered ball is more generally used by men, and not alone those who have weak hands. Comfort counts first, of course, but many high ranking bowlers have gone to the "extra hole" sphere because it lends itself more readily to "playing" all types of alleys. It "handles" more easily.

Andy Varipapa, turned to the three-finger only recently and his explanation for the change is this:

"Most important of all, the extra-hole ball saves wear on the hand because, unlike the two-fingered ball, it is easier to grip securely without squeezing or forcing the fingers. That gives a feeling always being relaxed, and how important it is to be relaxed asserts itself when one gets into tough competition, whether in league or tournament or match play."

Varipapa is strong witted; has powerful hands. He applies a tremendous wrist turn to put hook spin on the ball, which, with the two-fingered ball, worked to a disadvantage because, in trying to speed the sphere, he too frequently "lost" the ball, or dropped it prematurely. This happened only on a "run" or quick break alley surface.

With three-fingered ball he is able to pitch or loft it out onto the alley and get speed WITHOUT forcing the swing, without rushing his footwork. He KNOWS the ball will remain in his hand until he WANTS TO RELEASE IT.

## Accidents, Bad Luck; Moore's Girls Defeated

A series of accidents, mishaps and stayed or missed mindsets combined to weaken Evelyn Moore's Flemings to such an extent that they dropped a 146-pin decision Thursday night to the Independent Married Men.

Here are the gruesome details: 1. E. Moore left her ball in Poughkeepsie—result 371.

2. Dot Flemings suffered sprained ankle just before match started—440.

3. Betty Boyce—split thumb on bowling hand—424.

4. Marie Koeng—drafted at last minute—440.

5. Beverly Markle, sprained wrist, and was able to shoot only 516, high "man" for the match.

The I.M.M. also bowled, Larry Jacobs leading with 511.

## Ostrander, Former Maroon Star, Enters V-5 Program

**St. Joseph's Crush Port Ewen, 94 to 23**  
**St. Mary's Rap Out 58-19 Win Over Presbys**

St. Joseph's and St. Mary's walloped out impressive victories in the Church Basketball League this week. St. Joseph's battered the weak Port Ewen Reformed team 94 to 23 and St. Mary's managed to squeeze through with a 58 to 19 win over First Presbyterian.

A. McCauley starred for St. Joseph's with his 30 points while adequate but unnecessary aid came from Ebelheiser and Dolan who assaulted the wicket for 23 points apiece. Short dropped in nine for the losers.

St. Mary's had a tougher time of it after taking an 18-13 lead in the first two periods of play. Riggin was high man in this game with 26 points. McGrane shoved in 19. Dunn and Priest scored 17 apiece for the Elmendorf street basketballers.

publish in newspapers lists of registration and polling places, days and hours for registration or voting, and brief descriptions of election district boundaries.

3—Delete a provision allowing savings and loan associations to charge a premium on loans in addition to the legal interest rate. The measure also provides that the first periodic payment on a loan for building construction may be deferred up to six months after first advance is made.

### Vetoes Tax Bill

Dewey vetoed a bill which would have listed a requirement that the Tax Commission publish all rulings relating to adjustments of the business franchise tax (9-A) and, instead, would have included such rulings as were considered of general interest in the annual report.

"It is frequently difficult," the governor said, "to define the precise type of case to which equitable adjustment provisions should be applied. However, there are many who believe that it is sounder tax administration to give publicity to any case in which the Tax Commission deviates from the prescribed statutory formula."

### Drivers' Test Proposed

Other chief traffic safety proposals forwarded by the conference were that "accident-prone" drivers and "persistent law violators" be re-examined for licenses; that all governmental units put roads in better condition; that the minimum age limit for senior drivers' licenses be returned to the pre-war 18-year level from the present 17 years.

The conference advocated education department courses for teaching of driving in secondary schools, and intensive safety training for teachers, policemen, and the public generally.

they are playing an active part in it. Also, it can be taken as certain that neither the Russian people nor their leaders have any conscious desire to plunge into another war.

Later during a press conference, Dulles was asked if he thought the atomic bomb had had any effect on American-Soviet relations.

He replied that had the United States given the Russians the atom bomb secret, they "would only think we were slightly imbecile."

"Never has there been any request from the Soviet Union to know our secret of the atomic bomb," Dulles said, "because under reverse conditions, it would never occur to them to share it. They hold military secrets as most cherished possessions, so I cannot honestly say that our failure to share the secret had any bad effect."

Dulles, who recently returned from the U.N.O. sessions in London, said it was imperative for the United Nations to immediately undertake "new programs of common effort for common good." He said that so far the "difficult job of organization was done in good spirit" but added it was "discouraging" that the Security Council "seldom showed a genuine spirit of conciliation."

### Japs Would Assist in Move For World Justice

Tokyo, March 2 (AP)—Dr. Toyohiko Kagawa, noted Japanese Christian leader, said today that Japanese Christians would "most heartily" welcome an opportunity to speak for international justice and world peace from a religious viewpoint.

Kagawa's appointment to an international relations commission designed to coordinate church work in international affairs was announced at Geneva February 24 by the Provisional Committee of the World Council of Churches. He had not been notified officially of the designation but added:

"It is a matter of very great significance if any Japanese were given opportunity to discuss from a religious point of view international justice and world peace, in view of the fact that Japan has lost her place in international relations."

Kagawa said the nomination would have to be verified by the standing committee of the Japanese Church Council and that the verification would have to be approved by Supreme Allied Headquarters.

## Sandhogs, Sans Fanfare, Boring 1-Mile Tube Under East River

New York, March 2 (AP)—In a steel tube 125 feet under the East River, hundreds of sandhogs are pushing their way through muck, silt and laminated rock to complete the \$84,000,000 Brooklyn-Battery tunnel which will link Manhattan and Brooklyn.

Working without fanfare and to the almost complete unawareness of the city's busy millions, the men progress on an average of a foot an hour.

Started in 1940, suspended in 1942 because of the war, and resumed last November, the massive underground project has been almost forgotten in the whirl of the post-war months.

Ralph Smillie, chief engineer of the New York City Tunnel Authority, said today that under the present rate of progress the men, working from both sides, would meet in about 13 months in the vicinity of Governors Island. He predicted the mile-long tunnel would be open to vehicular traffic early in 1949. It will accommodate 15,000,000 vehicles yearly.

No Fatalities Reported  
Smillie said 1,100 workers presently were employed, adding that more than 3,000 would be on the job eventually.

"We haven't had a single fatality or serious accident," he declared in discussing the project, where the sandhogs work under 22 pounds of pressure, six hours at a stretch.

Statistically, the tunnel is progressing something like this: The Manhattan-side workers are making 17 feet daily and the Brooklyn diggers seven feet. Manhattan crews have advanced 1,400 feet and the Brooklyn men 1,600.

Soft ground on the Brooklyn side has brought the use of compressed air in the digging, with cast-iron tube lining being in-

## Child Study Club Hears

Paper by Mrs. Cloonan

Child Study Club 2 met with Mrs. John Bott, Andrew street, Thursday evening. A short business meeting was conducted by Mrs. George Chilson, chairman. A straw ballot was taken for the election of officers for the coming year.

The paper for the evening was given by Mrs. Edmund Cloonan, entitled "Family Goals for the Little Child." Mrs. Cloonan pointed out that the child learns most of what he gets in the years from 1 to 6, the span of greatest learning. At this time the parents have the greatest opportunity to guide the child. She warned that parents should never force or decide for a child but try to understand him. She said that it is not important what parents do for the child but what they do with him.

At the close of the meeting refreshments were served by the hostess. The next meeting, March 14, will be at the home of Mrs. Gilbert Schaffner, East Chestnut street. Mrs. John Bott will give the paper on "The Family Goals for the School Child."

## World Traveler Is Speaker Scheduled At Salvation Army

THOMAS W. WILSON, territorial commander of the Salvation Army in North China, will make two appearances in this city at the Salvation Army hall, 90 North Front street, next Wednesday and Thursday, March 6 and 7, beginning at 8 o'clock. It will be the first time that a commissioner has ever appeared in this city.

Next Wednesday night he will speak on the missionary work and Thursday evening he will show

movies to the public which he has taken throughout his world travels. Commissioner Wilson has been a Salvation Army officer for 43 years and has spent much of this time in Japan, East Africa and Korea.

The career of Commissioner Wilson has been both long and interesting starting back in 1889 when he was commissioned from the International Training College in London. After that he spent six years in Manchester, England, during which time he married Lieutenant Augustus Marshall.

In 1905 Commissioner Wilson, then a captain, was transferred to Japan where he spent some 21 years, most of the time in Tokyo. He was promoted to the rank of lieutenant colonel and appointed territorial commander for British East Africa in 1926 and following this spent nine years supervising activities in his 250,000 square miles of territory.

While in Kenya, the commissioner built up the Salvation Army's personnel to a force of 20 officers and 60 cadets who were in training when he departed. He also was responsible for the erection of 40 of the army's present permanent buildings there, including the headquarters and training college. He also opened mission work in Uganda and Tanganyika.

Feted by King  
As a result of his outstanding work in British East Africa, Commissioner Wilson was awarded the Silver Jubilee medal for distinguished service by King George V, in 1935.

During the time from 1932-42 Mr. Wilson was territorial commander for Korea and organized the Salvation Army Corps in 15 cities. Through his initiative, the organization opened the first traveler's aid hostel for young girls in Fusan, southern seaport of Korea. Then in 1941 Commissioner Wilson received his appointment to North China and left Korea with Mrs. Wilson for a furlough in the United States and Canada. Because of the war against Japan, he was prevented from going to China, and at the present time is carrying on evangelistic work throughout this country and Canada.

## Beautiful Music, Drama, Humor, in Uncle Tom's Cabin

"Uncle Tom's Cabin," a 93-year-old veteran of the American stage, will be presented in Kingston, Tuesday, March 5 as a streamlined, modern musical.

Produced by the Reed Lawton company, the Harriet Beecher Stowe classic is due for two presentations at the municipal auditorium under the sponsorship of Kingston Post No. 150, American Legion. The regular performance is scheduled at 8:15 p. m., with a students matinee at 3:30.

Tickets are now on sale at the American Legion Memorial Hall. Mario Cozzi, former Metropolitan Opera and concert baritone, will have one of the leading roles in the cast. Other tonetones to be seen are Dorothy Hood, Wade Dent and Eileen Kelly.

The Lawton company will have its own brass band and an a cappella choir. All the immortal characters of the play—Uncle Tom, Little Eva, Simon Legree, Topsy, Ophelia St. Claire, Augustine St. Claire and Lawyer Marks.

## Minstrel Show, Too

This beautiful musical version will be built around the songs of America's beloved Stephen Foster. The a cappella choir will render such numbers as "Deep River," "Nobody Knows," "Golden Slippers," and an old-time minstrel show complete with band will be presented during the prologue. Elaborate stage settings will depict the great scenes from the show: "Eliza crossing the ice pursued by the hounds," "Eva's Death," "Uncle Tom beaten by

## Dewey Desires Cars Inspected

publish in newspapers lists of registration and polling places, days and hours for registration or voting, and brief descriptions of election district boundaries.

Debate a provision allowing savings and loan associations to charge a premium on loans in addition to the legal interest rate. The measure also provides that the first periodic payment on a loan for building construction may be deferred up to six months after first advance is made.

**Votes Tax Bill**  
Dewey vetoed a bill which would have listed a department that the Tax Commission publish all rulings relating to adjustment of the business franchise tax. A bill in 1945 would have included such rulings as were considered of general interest in the annual report.

"It is frequently difficult," the governor said, "to define the precise type of case to which equitable adjustment provisions should be applied. However, there are many who believe that it is sounder tax administration to give publicity to any case in which the Tax Commission deviates from the prescribed statutory formula."

**Drivers' Test Proposed**  
Other chief traffic safety proposals forwarded by the conference were that "accident-prone" drivers be re-examined for licenses; that all governmental units put roads in better condition; that the minimum age limit for senior drivers' licenses be returned to the pre-war 18-year level from the present 17 years.

The conference advocated education department courses for teaching of driving in secondary schools, and intensive safety training for police, policemen, and the public generally.

## Soviet Barriers Pose UNO Problem

they are playing an active part in it. Also, it can be taken as certain that neither the Russian people nor their leaders have any conscious desire to plunge into another war.

Later during a press conference, Dulles was asked if he thought the atomic bomb had had any effect on American-Soviet relations.

He replied that had the United States given the Russians the atomic bomb secret, they "would only think we were slightly imbecile."

"Never has there been any request from the Soviet Union to know our secret of the atomic bomb," Dulles said, "because under reverse conditions, it would never occur to them to share it. They hold military secrets as most cherished possessions, so I cannot honestly say that our failure to share the secret had any bad effect."

Dulles, who recently returned from the U.N.O. sessions in London, said it was imperative for the United Nations to immediately undertake "new programs of confidence building."

He said that so far the "difficult job" of organization was done in good "spirit" but added it was "disconcerting" that the Security Council "seldom showed a genuine spirit of conciliation."

**Japs Would Assist in Move For World Justice**  
Tokyo, March 2 (AP)—Dr. Toyohiko Kagawa, noted Japanese Christian leader, said today that Japanese Christians would "most heartily" welcome an opportunity to speak for international justice and world peace from a religious viewpoint.

Kagawa's appointment to an international relations commission designed to coordinate church work in international affairs was announced at Geneva February 21 by the Provisional Committee of the World Council of Churches. He told the Jiji Press Agency he had not been notified officially of the designation but added:

"It is a matter of very great significance if any Japanese were given opportunity to discuss from a religious point of view international justice and world peace, in view of the fact that Japan has lost her place in international relations."

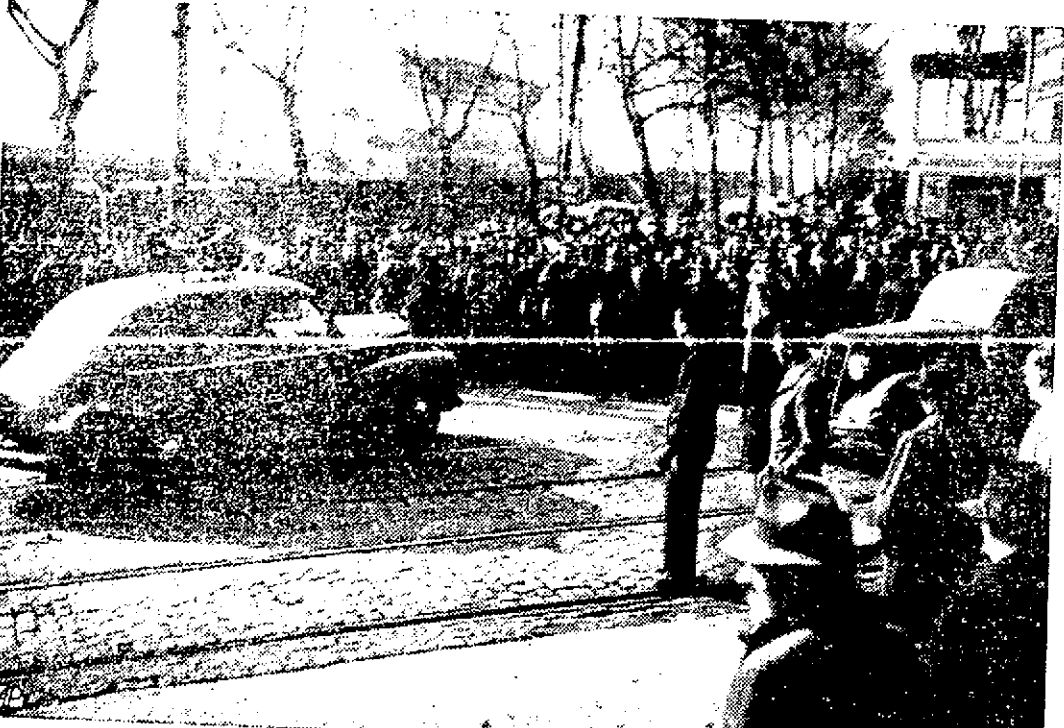

Kagawa said the nomination would have to be verified by the standing committee of the Japanese Church Council and that the verification would have to be approved by Supreme Allied Headquarters.

## Sandhogs, Sans Fanfare, Boring Major Crime Orgy 1-Mile Tube Under East River During 1945 Was Worst in 15 Years

New York, March 2 (AP)—In a steel tube 125 feet under the East River, hundreds of sandhogs are pushing their way through muck, silt and laminated rock to complete the \$84,000,000 Brooklyn Battery tunnel which will link Manhattan and the borough of Richmond.

Working without fanfare and to the almost complete unawareness of the city's busy millions, the men progress on an average of a foot an hour.

Started in 1940, suspended in 1942 because of the war, and resumed last November, the massive underground project has been all but forgotten in the whirl of the post-war months.

Ralph Smith, chief engineer of the New York City Tunnel Authority, said today that under the present rate of progress the men working from both sides, would meet in about 12 months in the vicinity of Governors Island. He predicted the mile-long tunnel would be open to vehicular traffic early in 1949. It will accommodate 15,000 vehicles yearly.

**No Fatalities Reported**  
Smith said 1,100 workers presently were employed, adding that more than 2,000 would be on the job by May.

Workers had a single fatality or serious accident, he declared in discussing the project where the sandhogs work under 22 pounds of pressure six hours at a stretch.

Statistically, the tunnel is progressing some 100 feet a day. The month-end work is making 17 feet a day and the Brooklyn end is even faster. More than 100,000 cubic yards of earth and rock have been excavated and 100,000 cubic yards of concrete poured.

Smith said the Brooklyn end is being bored by a 100-foot-long, 10-foot-diameter tunnel boring machine. The only inhabitants are natives, the plumber will go to the first ground level in the morning, with white man who comes along, he said.

## NEW PALTZ

New Paltz, March 2—Laymen's Day was observed at the morning service in the Methodist Church Sunday morning. The following laymen assisted the Rev. E. Bond Brown in the service: Harry Oakley, Raymond Ha-brouck, E. G. Jacobs and Edward Gulnac. In the evening at 7:30 o'clock there was a hymn sing led by Edward Gulnac. The official board met in the church parlor Monday evening and on Tuesday evening the young people held their meeting there.

S. L. David Wiese, who has finished training at the Great Lakes Naval Base spent the past weekend with his wife at the home of his parents, Mr. and Mrs. David Wiese, Sr. He has returned to his base for reassignment.

April 2 and 3 are the dates set for the local firemen's minstrel show scheduled in the college auditorium. The program will include a large cast with comedy, dancing and singing. Rehearsals are now underway.

Servicesmen of New Paltz taking advantage of education under the G. I. Bill of Rights are: Herbert B. Wyndham, Herbert Le-Pevy, Harold M. Vandervoort, John F. Reid, George W. Geisler, Joseph Savago, Gerald DuBois, John L. Juckett.

Mr. and Mrs. Alvah Smith are moving into their home on the New Paltz and Highland road that they purchased from Mrs. Grace Clearwater of Poughkeepsie. Harry Marville of Highland has rented the house vacated by them.

Leslie Elliott has been discharged from the navy and is home. He was in Hawaii.

Mrs. Georgia Lillberg, Edith Lillberg and Mary Van Nostrand spent the past week at Camp Lee, Va., and visiting Washington.

A special program and howl luncheon has been arranged for the meeting of Highland Chapter, O.E.S., next Tuesday. Worthy Matron Cecile Peterson and Worthy Patron Kenneth DuBois will preside.

Mrs. Louis Yess was hostess to the County Club of Plutarch on Thursday evening. Mrs. Thomas Roberts was received as a new member. Songs were sung by Rose Marie Alessi, Karen Buttendorf and Audrey and Horace Elliott.

Mrs. Mabel Schneider and Mrs. Horace Elliott will have charge of the program at the next meeting in the home of Miss Congetta Alessi.
